

Technical Program of the 2003 Cigré Transformer Colloquium  
Interpretation of diagnosis methods used to assess transformers  
Mérida , Yuc, México June 2- 4, 2003

## Methods to assess Thermal Condition

- 01 **A NEW TRANSFORMER AGEING MODEL AND ITS CORRELATION TO 2FAL**  
Luiz Cheim, Carlos Dupont  
Brazil  
PA-BRAZIL.PDF
- 02 **Thermal ageing of transformer insulation and the role of the transformer condition.**  
Lars Lundgaard , Mats Dahlund  
Norway  
PA-NORWAY.PDF
- 03 **Critical Temperature on Bubble Evolution of Oil-Immersed Transformer under Overload Condition.**  
Takayuki Kobayashi, Tetsuo Oshi, Yutaka Kohno, Motoyasu Ichikawa, Yasuhiko Taniguchi, Naoki Amano.  
Japan  
OL-JAPAN.PDF
- 04 **TRANSFORMER CONDITION ASSESSMENT EXPERIENCES USING AUTOMATED ON-LINE DISSOLVED GAS ANALYSIS , S.R. LINDGREN**  
USA  
DGA-USA.PDF
- 05 **Case stories and interpretation of RVM results used to assess the ageing and moistening condition of transformers in service and after the refurbishment (Hungarian experiences),**  
Gusztáv Csépes , István Kispál  
Hungary  
DR-HUNGARY.PDF
- 06 **Transformer Diagnostics Using the Dielectric Frequency Response.**  
Asim Fazlagić, Mark Perkins  
Sweden  
DR-SWEDEN.PDF

## Methods to assess Mechanical Condition

- 07 **"The Variation of the Clamping Pressure of Power Transformers due to Operational Temperature Cycles and the Loss of Pressure With Time"**  
Ch. Krause  
Switzerland  
MP-Switzerland.pdf
- 08 **A New Method for Diagnosing Transformer Faults Using Frequency Response Analysis**  
Simon Ryder  
France  
FRA-FRANCE.PDF
- 09 **Comparison of FRSL and FRA methods for the detection of winding movement in Transformers**  
Patrick Picher ,Claude Rajotte  
Canada  
FRA-CANADA.PDF
- 10 **Case stories of FRA results used to detect the winding movement and geometric changes in power transformers (Hungarian experience)**  
Gusztáv Csépes , István Kispál  
Hungary  
FRA-HUNGARY.PDF

- 11 **A New Objective Technique to Detect Winding Displacements in Power Transformers Using Frequency Response Analysis**  
L. T. Coffeen, J. A. Britton, J. Rickmann  
USA  
FRA-USA.PDF
- 12 **UK EXPERIENCE OF THE USE OF FREQUENCY RESPONSE ANALYSIS (FRA) FOR DETECTING WINDING MOVEMENT FAULTS IN LARGE POWER TRANSFORMERS**  
John Lapworth, Paul Jarman  
UK  
RESUME-FRA-UK.PDF
- 13 **Experience of transformer winding Diagnostics by the low-voltage impulse method IN RUSSIA**  
A. Drobyshevski  
Russia  
FRA-RUSSIAN.PDF
- 14 **Frequency Response Analysis – Transformer Manufacturer Perspective**  
Rodrigo. Ocoń, Alvaro. Cancino, Ryszard Malewski.  
POLAND-MEXICO  
FRA-POLAND-MEXICO.PDF
- 15 **Experiences in using thermal and vibration models as diagnostic method of power transformer**  
Belén García, Juan Carlos Burgos, Ángel Ramos  
SPAIN  
TV-SPAIN.pdf
- 16 **ASSESSMENT OF MECHANICAL/THERMAL CONDITION OF TWO TRANSFORMERS**  
Harry Fridman  
Israel  
FRA-ISRAEL.PDF

## Methods to assess Electrical Condition

- 17 **EXAMPLES OF EXPERIENCE IN AUSTRALIA WITH PARTIAL DISCHARGE MEASUREMENTS TO DETECT AND LOCATE FAULTS WITHIN TRANSFORMERS**  
P. L. Austin, M Cotton, D Allan, G Bateman  
Australia  
PD-AUSTRALIA.PDF
- 18 **Some Fundamental Observations during UHF Partial Discharge Measurement in Transformers.**  
K. Raja, F. Devaux and S. Lelaidier  
France  
PD-FRANCE.PDF
- 19 **Condition assessment and fault localisation by different diagnostic techniques**  
Theo van Rijn, Wijnand Rutgers, Huub Reijnders  
Netherlands Resume-PD-Netherlands.pdf
- 20 **INVESTIGATION OF A GASSING TRANSFORMER**  
Tord Bengtsson, Olle Gustavsson, Lena Melzer  
Sweden  
PD-SWEDEN.PDF
- 21 **Use of a mobile unit for on-site PD measurement and fault location**  
André PETIT  
France  
Resume-PD France.doc
- 22 **Practical Trials of Partial Discharge Location and Characterisation Techniques**  
Paul Jarman, Tom Breckenridge, Denis Procter, Barry Ward  
UK  
PD-UK.PDF

- 23 **DETECTION, LOCATION, ASSESSMENT AND CLASSIFICATION OF FAULTS IN ENERGIZED POWER TRANSFORMERS USING ACOUSTIC EMISSION**  
Arturo Nunez, Samuel J. Temowchek, Ronnie K. Miller, Barry Ward  
USA  
PD-USA.PDF
- 24 **TRANSFORMER LIFE MANAGEMENT GERMAN EXPERIENCE WITH CONDITION ASSESSMENT**  
I. Höhle, A. J. Kachler, S. Tenbohlen, M. Stach, T. Leibfried  
Germany  
GENERAL-DIAGNOSTIC-GERMAN.PDF
- 25 **End Of Life Condition Assessment Of High Voltage Power Transformers**  
J.M. Braun and H. Sedding, Kinectrics  
Canada  
Resume-General diagnosis Canada.pdf
- 26 **Unit Power Transformer of a hydroelectric Plant Affected by Conductive Particles Suspended in oil**  
Refugio Reyes Aguirre  
Mexico  
Cond-Part- in Power Transformer.pdf
- Methods to assess Condition of Accessories (OLTC, Bushings)**
- 27 **On-Line Acoustic System for the Diagnostic Strategy of Tap Changers**  
Marc Foata, Claude Rajotte and Champlain Landry  
Canada  
OLTC-CANADA.PDF
- 28 **Condition Assessment of On Load Tap Changers using static and dynamic contact resistance**  
Brendan Diggin, Hannes Malan  
Ireland  
Resume-OLTC Ireland.pdf
- 29 **EXPERIENCES WITH ON-LINE MONITORING SYSTEMS FOR HIGH VOLTAGE BUSHINGS OF POWER TRANSFORMERS**, Roberto Liñán G., José T. Ramírez N., Alberth Pascacio and Jaime Carrillo C.  
Mexico  
BD-MEXICO.PDF
